Concrete Solutions Jan 06 2022

Concrete Solutions contains the contributions from some 30 countries to Concrete Solutions, the 6th International Conference on Concrete Repair (Thessaloniki, Greece, 20-23 June 2016). Strengthening and retrofitting are major themes in this volume, with NDT and electrochemical repair following closely, discussing the latest advances and technologies in concrete repair. The book brings together some interesting and challenging theoretical approaches and questions if we really understand and approach such topics as corrosion monitoring correctly. Concrete Solutions is an essential reference work for those working in the concrete repair field, from engineers to

architects and from students to clients. The Concrete Solutions Series of international conferences on concrete repair began in 2003 with a conference held in St. Malo, France in association with INSA Rennes. Subsequent conferences have seen the Series partnering with the University of Padua (Italy) in 2009, with TU Dresden (Germany) in 2011 and with Queen's University Belfast (Northern Ireland) in 2014. In 2016 Thessaloniki (Greece) hosted the conference, partnering with both Aristotle University of Thessaloniki (AUTH) and Democritus University of Thrace (DUTH). The next conference in the series will be held in 2019 in Istanbul.

Ecocriticism in Malayalam Aug 01 2021 The global trend in the scholarly field of ecocriticism (or, broadly, environmental humanities) is shifting towards localized sub-areas. This shift has been instrumental in canonizing local, subaltern, postcolonial, and unheard voices in ecocriticism. Such ecocriticism has gained relevant significance in the disciplines of humanities and social sciences, and boldly displays diverse ecocultural perspectives on communities, societies, languages and literatures—all of these being distinctly different from each other. Weaving a unique, ecocritical narrative from the rich literary and cultural texts belonging to Kerala, this volume presents several ecocritical perspectives, written by award-winning writers in Malayalam.

Transport Properties and Concrete Quality Nov 23 2020

This title is based on the workshop on Transport Properties & Concrete Quality, held at the campus of Arizona State University on October 10-12, 2005. During this meeting, scientific aspects of the relevant relationships between materials, mechanisms, processes, and service life were discussed. * Provides a useful resource for understanding the most valuable aspects of cement-based materials, with topics ranging from the current state of practice, to theory, simulation, and testing and specifications. * Logically organized and carefully selected articles give insight into the need to better integrate aspects of materials science, mechanics, modeling, and testing in developing tools of understanding the durability in cement-based materials.

Great Stories From Modern India Dec 05 2021

Not long ago, several naysayers readied to write the epitaph of the short story. The novel, and the odd-novella, indeed appeared to relegate the short story to oblivion. Fortuitously, the short story slipped through with

fresh and unexplored angularities to reclaim its rightful place in the corpus of world literature. Today, the short story's robustness continues to baffle the heretics and delight the believers. In India, particularly, hundreds of authors practise this craft in a multitude of languages, exploring a variety of themes, often in the face of stiff opposition from State-sponsored ideologues. *Great Stories From Modern India* brings under a single awning some of the most celebrated Indian writers who have excelled in the craft— SH Vatsyayan 'Agyeya', Rajinder Singh Bedi, Khushwant Singh, Amrita Pritam, Vaikom Muhammad Basheer, Premendra Mitra, Mulk Raj Anand, Balwant Gargi, Kamleshwar, Krishan Chander, Qurratulain Hyder, Ruskin Bond, and Indira Goswami, among others. While each story presents yet another unfathomable spectrum of human emotions in the writer's unique voice, this anthology, like an orchestral piece,

culminates in the shared quest of the meaning of existence, adversity, survival, annihilation, election, exile, crime, redemption and finally, homecoming.

Cosmopolitan Cultures and Oceanic Thought Sep 02

2021 This book imagines the ocean as central to understanding the world and its connections in history, literature and the social sciences. Introducing the central conceptual category of ocean as method, it analyzes the histories of movement and traversing across connected spaces of water and land sedimented in literary texts, folklore, local histories, autobiographies, music and performance. It explores the constant flow of people, material and ideologies across

the waters and how they make their presence felt in a cosmopolitan thinking of the connections of the world. Going beyond violent histories of slavery and indenture that generate global connections, it tracks the movements of sailors, boatmen, religious teachers, merchants, and adventurers. The essays in this volume summon up this miscegenated history in which land and water are ever linked. A significant rethinking of world history, this volume will be of great interest to scholars and researchers of history, especially connected history and maritime history, literature, and Global South studies.

Concrete in the Service of Mankind Jan 14 2020 This fourth volume of Concrete in the Service of Mankind focuses on radical concrete technology. Concrete is ubiquitous and unique, and is found in every developed and developing country. Indeed, there are no alternatives to concrete as a volume construction material for infrastructure. This raises important questions of how concrete should be designed and constructed for cost effective use in the the short and long term, and to encourage further radical development. Equally, it must

be environmentally friendly during manufacture, in an aesthetic presentation in structures and in the containment of harmful materials. This book should be of interest to concrete technologists; contractors; civil engineers; consultants; government agencies; research organizations.

Nation Building and Local Leadership

Nov 04 2021 This book on Nation Building and Local Leadership is a unique one without a parallel. It has evolved from the first ever Ph. D. thesis in India on the subject of Nation Building (submitted and approved for the award of Ph. D. from the JNU, New Delhi, in 1977). This book contains: (a) Theoretical justification for the study of nation building and local leadership; (b) Conceptual analysis of the concept and process of Nation building; (c) A review of Nation building in India from the phase of the nationalist movement till 1977 from a historical perspective; (d) Empirical study on the image of nation building held

by the local leaders in Tamil Nadu and Kerala selected for this study; (e) Conceptual analysis of the empirical findings from the behavioral study of the local leaders studied; and (f) Valuable and up-to-date profile of the important socio-political leaders of Kerala and Tamil Nadu given as Annexure at the end of the book. The book is a source of information and insights to those interested in understanding the dynamics of political evolution in Tamil Nadu and Kerala since the middle of the 20th century till now, including both teachers and students of fields like Political Science, Public Administration and Public policy formulation. The book provokes well-meaning political leaders of the day to ask and answer the question "Are we doing and accomplishing and what we are expected to be doing and accomplishing?". The author holds the academic qualifications of M.A.(First Class) in Political Science from the M.S. University, Baroda); M. Phil and Ph.D. in Political

Studies from the Jawaharlal Nehru University, New Delhi; M.B.A. (with Distinction) from the University of Leeds, U.K.; and E.K.S. from the Mewes System, Frankfurt, Germany. The SHROUDED SATANISM in FEUDAL LANGUAGES!

May 30 2021 This book can be downloaded as a PDF file from here. This book I wrote, I presume, in 2013. It is a huge book of epic parameters. The basic underlying theme is the essential difference, planar-languages has with feudal-languages. Feudal languages are quite powerful, in that, the moment they are spoken, the social structure and human relationships change powerfully into a custom-design hierarchy, depending on the language. When planar-languages are spoken, the social system and human relationship shift towards a planar arrangement. For a planar-language social system to experience feudal-language communication is a very creepy

experience. Individuals can go berserk. Mental trauma and emotional terrors, which cannot be understood by the native-English, will effect individuals selectively; with the others having no idea that some individuals among them have been effected. This is a very vital piece of information which all native-English nations should understand. For, youngsters, persons engaged in professions which are defined in pejorative usages in feudal-languages, and various others can literally go mentally ill, when accosted or connected with feudal-language speakers. The issue of Gun violence in the US in which innately decent and peaceful persons go homicidal can be directly or indirectly connected to the affliction caused by feudal languages. I very specifically mention the name of Adam Purinton in this connection. It is dangerous to allow bilingualism to run riot in native-English nations, if the other language is a feudal-language. For, feudal languages do have carnivorous

codes. Inside feudal-language nations, people do keep a distance from lower-positioned persons and groups of persons, who can, if they want, bite them verbally, without the use of any abusive word, profanity or expletive. Simply change the indicant-word level of certain key words. The terrific damage is done. Modern psychology and psychiatry can be utter nonsense. They do not know about these things. Verbal signals can trigger various kinds of switch-on and switch-off effects in others. Instead of focusing on the person who has been affected, it would be more intelligent and effective to find out who is sending the switch-on and switch-off signals. And send them home to their homelands. Feudal languages can create mutation in physical features, emotional balance, human relationships, national economy, and stature of professions, and in many more things about which native-English nations have no information on. It is dangerous for the native-English to learn feudal-languages, when living

in the midst of feudal-language speakers. It would only have the effect of allowing the feudal-language speakers to place a powerful grip on them, physically and mentally. In fact, the feudal languages speakers would literally be able to control the emotional stability of the native-English speakers, if they can be made to understand feudal languages. It would be like string-puppetry. The native-English who have learned feudal languages can literally be made to dance, yell and jump as per the pull and push that can be conveyed by means of the holding strings of the verbal codes in feudal-languages. At the same time, for feudal language speakers, knowing English is a great advantage. It would give a very powerful pathway and bridge for them to crossover the various gorges in their own communication code and enter into the placid native-English locations. As of now, almost all native-English nations are simply getting dismantled and disarrayed by the spread of

feudal-language speakers inside their vital areas. Things are going into various errors. Much worse is in the offing, unless effective steps are taken to forestall them. I wrote this book some five years back. In this book, a bit of the personal experiments I have done many years ago on certain individuals has been mentioned. This book is not focused on the internal codes in feudal-languages. This book moves through the peripheral areas of many other items, including the English colonial rule in the subcontinent.

The Dialectic of Historicity in Modernist Fiction: a Study Based on Select Works of O V Vijayan and M Mukundan Nov 11 2019
Modernism when viewed through the spectacles of Marxian aesthetics emerges as a problematic artistic movement, especially when placed within the context of social structures that define the cultural practices at any given point in time. The much discussed debate within the Marxist canon regarding the dialectic relationship between society and art in the context of modernism had stalwarts of Marxist criticism deliberating this relationship between art and society. From Europe, modernism spread to other parts of the world, including India where it captured the

imagination of the writers of regional languages as well. In Kerala, with its staunch Marxian perspectives and its supporters including a faithful political network of leaders and followers, modernism invited heated debates of a similar nature. A debate was triggered off challenging the ideological frameworks of modernist aesthetics with a large part of the intelligentsia actively participating in it. Kerala Kaumudi magazine published these arguments as a series, leading to further discussions in the cultural and political discourses that shaped the sensibility of the times. This book is an attempt to explore this relationship with these debates and discussions as referral points. To substantiate the arguments, four texts that emerged as iconic texts are studied - O V Vijayan's *The Legends of Khasak* (1969) and *The Saga of Dharmapuri* (1985) and M Mukundan's *On the Banks of Mayyazhi* (1974) and *God's Mischief* (1989).
