Like no other text for the intermediate microeconomics course, Goolsbee, Levitt, and Syverson's Microeconomics bridges the gap between today's theory and practice. A strong empirical dimension tests theory and successfully applies it. With carefully crafted features and vivid examples, Goolsbee, Levitt, and Syverson's text helps answer two critical questions students ask, "Do people and firms really act as theory suggests" and "How can someone use microeconomics in a practical way?" The authors teach in economics departments and business schools and are active empirical microeconomics researchers. Their grounding in different areas of empirical research allows them to present the evidence developed in the last 20 years that has tested and refined the fundamental theories. Their teaching and professional experiences are reflected in an outstanding presentation of theories and applications. In the Chapter Seven interview, he describes his current work as a professional illustrator. In Chapter Eight, Dennis Montagna describes connections between his art and design major and his current historical preservation work for the National Park Service. Almost fifty new images have been added, representing major contemporary artists and designers including Wolfgang Buttress, Do Ho Suh, Garo Antresian, Janet Ballweg, Phoebe Morris, Alain Cornu, and Natalya Zahn.
