Jan 17 2022 How to use Wall Street like Easy Street tells you can start trading and making money right away and learn how to use Wall Street financial markets like they are a bank ATM machine. How to use Wall Street like Easy Street is short, down and dirty and will tell you what you need to see and who are in control of the markets as well as how to make unlimited money right alongside them. All the information you need to be consistently profitable is right out in the open on the trading charts you look at and is no secret, can you see it? Make no mistake trading is a dead serious business and you should treat that way. You as a self-directed retail investor or trader have a limited chance of having a positive outcome in the live market against the best market participants in the world, not to mention having to try to make money from the machines. It is said that 70% of the market making is done by super computers now. You can't beat them however you can train yourself to see what they are doing on a price chart and then make money with them and if you pay attention to what is in How to use Wall Street like Easy Street you will be well on your way to doing that. I like to think of it (the market) as a big bank ATM machine because it is open virtually 24 hours a day seven days a week just about. You just need to have the proper PIN# to get your money out. Do the proper training and education and do not make the mistakes in this book and you will be well on your way to having your own personal PIN# to make unlimited money in the live markets every day. While the market is like a big ATM that is open 24 hours a day if you don't have the right PIN# your money will get sucked into the ATM machine, of that you can be assured. You will be competing with Wall Street banks, hedge funds, mutual funds etc. and all the professional self-directed traders in the world who "get it", and you must educate yourself to be a competitor and a winner. You want to have success, right? You need to be prepared to work with the best in the world because that's who's in there. If you want to get your investing and trading business on track to make money every day in the live markets, I strongly encourage you to learn how to spot what the smart money is doing in the live market, and then follow their lead down the path of least resistance, it will lead you right to your own bank account.
